

Services: Campus Cable

Last Modified on 05/21/2021 12:08 pm CDT

LTS supports and maintains the cable television system that distributes broadcast and specialized television channels to select locations on campus. Access to this new digital cable network can be made by having a faculty member fill out this [e-form](#) application. Pending approval, LTS will contact the applicant to make arrangements for hardware purchase (if needed) and to identify location for new cable wiring to be installed. This e-form also includes information on monthly charges from Charter Communication for the service.

Because the new campus Cable TV network utilizes the latest digital technology, only TVs with digital (QAM) tuners will work. (Older "analog only" TV's will not work.) If you need assistance in determining whether or not your existing television will work with the new network, please contact LTS.

Campus Channel Listings
