TreeSize Professional is a tool that can help you view the items on your H: drive in order to clean and organize them.

NOTE: TreeSize Professional is not available on Macs.

To access TreeSize Professional on Windows 7:

1. Click on the Office button on the bottom left of your computer.
2. Click Computer. You will see your H: drive, which is marked with your username.
3. Right click on your H: Drive.
4. Select TreeSize Professional from the list of options.
5. A video on the TreeSize Professional website will show you how to navigate the program and delete files: http://www.jam-software.com/treesize/videos.shtml.
