Qualtrics: Overview

Qualtrics is a university supported survey software. This program offers a variety of survey options, survey appearance, survey statistics, and mass distribution options. The Qualtrics workshops will show learners how to create a basic survey, download results into Excel/Word, and how to create panels in order to distribute a survey to email list of participants.

Qualtrics Trainings Offered

- **Qualtrics-Basic**: This is an introductory Qualtrics course designed to teach learners the following skills: how to create survey questions, how to delete survey questions, how to use basic display and skip logic, how to manage surveys, and how to distribute surveys through an anonymous link.
  
  View Related Articles

- **Qualtrics-Intermediate**: Learn how to manipulate blocks and questions, using survey flow, and survey options (such as, Custom End of Survey Message and piped text from survey questions).
