

Athena Pages: Editing a Page: Page Overview Tab

Last Modified on 04/22/2022 11:23 am CDT

NOTE: If you are looking to activate or deactivate an already created item [click here](#).

This article is for editing the Page Overview tab in the Pages app in Athena.

1. Edit the *Title* as desired.

Edit Page: Test IMC with side nav

Properties	Page Overview	Page Content	Top Slider	Organize	Redirects
------------	----------------------	--------------	------------	----------	-----------

Admin

Intro Section

Title *

Title should be under 70 characters and descriptive of the content on the page.

Subheader *

Intro Paragraph *

This is a test page with side navigation. Here, we are testing the wildcard row. I will create a page without the side navigation so we can compare them side-by-side. Please let me know what you think!

Excerpt

Excerpt Title *

This title will display if someone links to your page via a page highlight.

Excerpt Paragraph *

Button Override Text (optional)

Recently Editing This Page

Nobody but you in the last hour.

If others are editing this page at the same time you are, there may be conflicts, which can risk losing content on this page.

2. Edit the *Subheader* as desired.
3. Edit the *Intro Paragraph* as desired.
4. Edit the *Excerpt Title* as desired.
5. Edit the *Excerpt Paragraph* as desired.
6. Edit the optional *Button Override Text* as desired.
7. Edit the *Slider Caption* as desired.
8. Edit the *Meta Description* as desired.

Miscellaneous

Slider Caption *

Test IMC

Meta Description

This description is displayed under the title in search results. In 155-160 characters, explain what people will find on this page and why they should visit.

SAVE AND PUBLISH

9. Click **Save and Publish**.
10. Proceed to the [Page Content tab](#).
