Summary: Claim files, call books, membership rolls, and other miscellaneous documents of a railroad workers' union local in Altoona, Wis.

Biographical / Historical Note

Originally founded in 1873 as the Brotherhood of Locomotive Firemen, the Brotherhood of Locomotive Firemen and Enginemen (BLF&E) was a railroad workers' union. In 1969, the BFL&E merged with several other railroad workers' unions to form the United Transportation Union.

Lodge No. 68 of Altoona, Wis. Appears to have been founded in the early 20th century. Prior, Altoona area railroad workers may have belonged to the Brotherhood of Locomotive Engineers, another railroad workers' union with a presence in the area. Enginemen, served railroad workers on the Chicago, St. Paul, Minneapolis and Omaha Railway Company and the Chicago Northwestern Railway.
