

# Policies: Institutional Chemical Hygiene Plan

Last Modified on 01/06/2023 7:40 am CST

The Institutional Chemical Hygiene Plan (ICHP) establishes a formal written program for protecting laboratory personnel against adverse health and safety hazards associated with exposure to potentially hazardous chemicals and must be made available to all employees working with hazardous chemicals. The ICHP describes the proper use and handling practices and procedures to be followed by faculty, staff, students, visiting scholars, and all other personnel working with potentially hazardous chemicals in laboratory settings at UWEC.
