

eForm: Student/Staff Incident Report

Last Modified on 05/25/2021 2:39 pm CDT

Incident Report eform

A new Incident Report eform has been created to use in reporting injuries that are NOT work-related. This form should be used by any faculty, staff or student for occurrences of property damage or dangerous situations. This form should also be used for incidents that could have caused an injury or property damage if conditions were slightly different (also known as "near miss"). For work related injuries, student employees are to complete the [Worker's Comp Injury Report](#) forms instead.
