

Policies: CPR/AED Training Program

Last Modified on 03/15/2023 1:51 pm CDT

CPR/AED Training Program: This policy is to provide guidance to departments in determining when Cardiopulmonary Resuscitation (CPR) and Automated External Defibrillator (AED) training is required for their employees and to ensure that adequate equipment are readily available. In addition, each department shall be responsible for the monthly inspection and assessing the need to train staff in the performance of CPR/AED.
