

Policies: Ergonomic Safety Program

Last Modified on 07/01/2021 12:33 pm CDT

The Ergonomics Safety Program is to inform all employees that UW-Eau Claire is committed to provide guidance in the identification of ergonomic hazards and the implementation of controls that will reduce the potential for injury due to those hazards. This program ensures that all affected employees are aware of job-related risk factors and provides information and solutions to prevent and reduce occupational musculoskeletal disorders.
