## UDOIT Cloud Course Accessibility Checker

UDOIT (Universal Design Online Inspection Tool) is a Canvas course accessibility checker to guide you in editing and remedying technical accessibility concerns in your course. UDOIT scans course content, identifies accessibility issues, and helps guide you through making the changes needed using Universal Design principles. Originally created by the University of Central Florida, the tool identifies 20+ prominent accessibility concerns and walks instructors through making those changes.

UDOIT focuses on text, images and formatting within a Canvas course like pages, assignments, discussions, etc. UDOIT Cloud does not (yet) scan files and documents for accessibility issues. The tool includes a "Review Files" area that will list all documents in a course and allow you to track if they have been reviewed for accessibility.

## Getting Started

1. Log into [Canvas](#) and access your course from the Dashboard.
2. Click **Course accessibility checker (UDOIT)** in the course navigation menu on the left.  
*NOTE: Only users with a Teacher or Administrator role see this link. If you cannot see the link complete the steps below:*
  1. Click the **Settings** button and click **Navigation** along the top
  2. Scroll to the bottom, click the **three dots** next to UDOIT, and click **Enable**.
  3. Scroll down and click **Save**.
3. Click **Authorize** if prompted with "Cidi Labs UDOIT Cloud requests access to your account."
4. UDOIT automatically scans your course (which may take a minute or two) and lists errors, suggestions, and ways to get started.
